ACADEMIC BACKGROUND:

MSC IN BUSINESS INTELLIGENCE

AARHUS UNIVERSITY

09/2020 - PRESENT

My Master's trains me for supporting management decision making, that creates real business value, with statistical data analysis, data visualization, data management and business forecasting methods. Moreover, I'm trained for developing Information Systems and how to successfully implement them.

Some of the Courses:

- Machine Learning for Business Intelligence
- Business Intelligence and Data Management
- Customer Analytics
- Business Forecasting
- Data Science Project

BSC IN ECONOMICS AND BUSINESS ADMINISTRATION

AARHUS UNIVERSITY

09/2017 - 06/2020

The Bachelor's Programme has introduced me to a number of essential business subject areas ranging from Marketing and Finance to Business Statistics. It has taught me the first steps of statistical thinking and data analysis.

Some of the Courses:

- Quantitative Research Methods
- Business Statistics
- Operations Management
- **Bachelor Thesis Project: An Analysis of Factors that Contributed to the Current Economic Crisis in Venezuela**

UNIVERSITÉ LAVAL (CANADA) - SEMESTER ABROAD

09/2019 - 12/2019

Throughout this semester I've acquired practice and theory in the fields of sustainability, international relations and entrepreneurship.

Some of the Courses:

- Principles of Responsible Management
- Doing Business in the United States
- Small Business Strategic Management and Entrepreneurship
